

## 2018-2019 Traditional & Kampo Medicine Article List

Volume	Issue	Clinical/Basic	Manuscript Category	Article Title	DOI
5	1	C	Original Article	Randomized, dose-controlled double-blind trial: Efficacy of an ethanolic kava ( <i>Piper methysticum</i> rhizome) extract for the treatment of anxiety in elderly patients	DOI: 10.1002/tkm2.1079
		B		<i>Parinari curatellifolia</i> seed flavanoids protect against Triton-induced dyslipidemia and atherogenicity in rats	DOI: 10.1002/tkm2.1082
		B		Antiviral activity of macrophage-activating Chinese mixed herb hot water extract	DOI: 10.1002/tkm2.1085
		B		Anti-obesity and anti-inflammatory effects of peroxisome proliferator activated receptor- $\gamma$ induced by bofutsushosan powder versus extract	DOI: 10.1002/tkm2.1086
		C		Efficacy and safety of the traditional Japanese herbal medicine kamikihito for bone marrow suppression, particularly thrombocytopenia, during chemotherapy for advanced recurrent ovarian cancer	DOI: 10.1002/tkm2.1087
		B		Protective effect of boiogito extract with glucosamine HCL against adjuvant-induced arthritis in rats	DOI: 10.1002/tkm2.1089
		B		Laxative action of sennoside A, which causes decreased colonic aquaporin-3 expression, is controlled by the anti-inflammatory effect of glycyrrhizin	DOI: 10.1002/tkm2.1090
		C	Short Communication	Effectiveness of Japanese Kampo treatment in dysmenorrhea: Single-center observational study	DOI: 10.1002/tkm2.1088
		C	Case Report	Non-alcoholic fatty liver disease satisfactorily treated with traditional Japanese kampo medicine	DOI: 10.1002/tkm2.1083
		C		Alternative therapy for pure leishmaniasis	DOI: 10.1002/tkm2.1084
5	2	B	Original Article	Ameliorative effect of animal bile preparations on dextran sulfate sodium-induced colitis in mice	DOI: 10.1002/tkm2.1094
		B		Effect of hangekobokuto for amelioration of aggressiveness and social behavior in socially isolated mice	DOI: 10.1002/tkm2.1095
		B		Vasorelaxant effects of diarylheptanoids, acerogenin A and (-)-centrolol from the bark of <i>Acer nikoense</i>	DOI: 10.1002/tkm2.1197
		B		Polygalae radix extract ameliorates behavioral and neuromorphological abnormalities in chronic corticosterone-treated mice	DOI: 10.1002/tkm2.1198
		B		Effect of maternal yokukansan treatment on somatosensory map formation in the cerebral cortex of newborn mouse pups	DOI: 10.1002/tkm2.1199
		C		Estimated incidence of adverse reactions to Kampo medicines in randomized controlled clinical trials	DOI: 10.1002/tkm2.1200
		C	Case Report	Daikenchuto prevention of postoperative ileus after retroperitoneal lymph node dissection in advanced childhood testicular yolk sac tumor	DOI: 10.1002/tkm2.1091
		C		Localized tetanus treated with kampo medicines	DOI: 10.1002/tkm2.1092
		C		Kampo extract goshuyuto for prevention of paroxysmal atrial fibrillation associated with migraine attack	DOI: 10.1002/tkm2.1196
6	1	B	Review	Kampo pharmaceutical products in the Japanese health-care system: Legal status and quality assurance	DOI: 10.1002/tkm2.1204
		C	Original Article	Web-based evaluation system for closing the education gap in Kampo medicine between facilities	DOI: 10.1002/tkm2.1207
		C		Objective tongue color and gastroesophageal reflux disease: Cross-sectional study	DOI: 10.1002/tkm2.1210
		C		Incidence of kampo medicine-induced interstitial pneumonia: 10 year retrospective study at a university hospital kampo medicine department	DOI: 10.1002/tkm2.1211
		B	Short Communication	Rokumigan alleviates oxaliplatin-induced cold hypersensitivity by suppression of <i>transient receptor potential cation channel subfamily M member 8</i> and <i>subfamily A member 1</i>	DOI: 10.1002/tkm2.1205
		C	Case Report	Ninjin'yoeito for symptoms of frailty: Successful treatment of three cases	DOI: 10.1002/tkm2.1206
		C		Adjunctive kampo therapy for incomplete Kawasaki disease mimic associated with reaction at the bacillus Calmette-Guérin inoculation site	DOI: 10.1002/tkm2.1208

6	2	B	Review	Traditional Japanese kampo medicine – History of ideas and practice; Part 1: From ancient shamanic practice to the medical academies of Edo	DOI: 10.1002/tkm2.1209
		B		Water control mechanism of byakkokaninjinto and its active components via aquaporins	DOI: 10.1002/tkm2.1213
		B	Original Article	Therapeutic effects of shikonin on skin lesions in mouse models of allergic dermatitis and wound	DOI: 10.1002/tkm2.1216
		B		Boiogito prevents dietary lithocholic acid (LCA)-induced cholestatic liver injury through the suppression of intestinal LCA absorption	DOI: 10.1002/tkm2.1214
		B		Hainosan (painongsan) suppresses the biofilm formation of <i>Porphyromonas gingivalis</i> and <i>Prevotella intermedia</i> <i>in vitro</i>	DOI: 10.1002/tkm2.1215
		B		Effect of hangebyakujutsutemmato on pregabalin-induced dizziness in a rat model of neuropathic pain	DOI: 10.1002/tkm2.1218
		B		Effect of <i>Lactobacillus paracasei</i> A221-fermented ginseng on impaired spatial memory in a rat model with cerebral ischemia and $\beta$ -amyloid injection	DOI: 10.1002/tkm2.1220
		C	Short Communication	Daisaikoto for shoulder stiffness and related changes in stool condition: Retrospective study	DOI: 10.1002/tkm2.1219
		C	Case Report	Kampo medicine resolves a case of polypharmacy with improvement sustained for 10 years	DOI: 10.1002/tkm2.1217
		6	3	B	Review
C	Original Article			Kampo therapy for idiopathic interstitial pneumonia (report 2): Gradual decrease in KL-6	DOI: 10.1002/tkm2.1224
C				Effect of kamikihito on platelet count: Retrospective pilot study	DOI: 10.1002/tkm2.1227
C				Gingyogedokusan versus oseltamivir for the treatment of influenza: Bayesian inference using the Markov chain Monte Carlo method with prior pilot study data	DOI: 10.1002/tkm2.1228
B				Network analysis of kampo formulas based on crude drug composition and indications	DOI: 10.1002/tkm2.1229
C				Development of a medical education program with abdominal palpation simulators to support the understanding of traditional Japanese (kampo) medicine in beginners	DOI: 10.1002/tkm2.1230
B				Modulating effects of a decoction of a traditional Japanese herbal formula, hochuekkito (with Hedysari radix and Atractylodis rhizoma), on the local mucosal immune system of aged mice	DOI: 10.1002/tkm2.1231
B				Effects of kampo medicine keishikashakuyakuto on large intestine disease in mice	DOI: 10.1002/tkm2.1232
C	Short Communication			Obstacles to the use of complementary and alternative medicine by primary care physicians: Preliminary study	DOI: 10.1002/tkm2.1225
C	Case Report			Alopecia universalis successfully treated with kenchuto groups in a pediatric patient	DOI: 10.1002/tkm2.1233
